***pictures are a bit violent and brutal.**

WHAT DOES THE EU SAY ABOUT THIS?

This happens in Denmark !

Pass it on to your friends around the world! It is OUTRAGEOUS! Make Denmark STOP!

While it may seem incredible, even today this custom continues, in Dantesque - in the Faroe Islands, (Denmark). A country supposedly 'civilized' and an EU country at that. For many people this attack to life is unknown– a custom to 'show' entering adulthood. It is absolutely atrocious. No one does anything to prevent this barbarism being committed against the Calderon, an intelligent dolphin that is placid and approaches humans out of friendliness.

What a shame, a sad scene! This information has to be circulated. There is no worse beast than man!

Circulate this! Make this atrocity known and hopefully stopped!
